

All,

Please find the attached daily situational report for Tuesday, September 15, 2020.

Positive Cases: 21

Deaths: 0

Recovered: 19

Active Cases: 2

Received notification from DSHS yesterday of two additional recovered cases; in both of these cases, the County never received the notice of a new positive case. Therefore, neither of these newly recovered cases have been reflected in our previous counts.

Thanks,

Tanner
